Jen...I think these are assigned to you. Can you please respond. Tell him that we will get them out in the next few weeks and that we've been busy with a lot of rodenticide actions...etc ... blah blah.
Thanks

John

Hi John –

I am hoping you can update me on the status of the attached bromadiolone amendments submitted in December 2009. The May 2008 risk mitigation document stated that “The Agency intends to issue decisions on amendments submitted without supporting data within 3 months.” Based upon this, we were expecting to hear something in March. Please let me know if you have an idea of when we might expect approval of these amendments so that we can implement planning the transition.
Thanks, Steve

Cheri –

Could you please scan in the JOB amendments submitted in December and send them to me. I would like to followup directly with EPA on this one.

Thanks, Steve
